Acceptance obtained for remaining stages of Velkomn project

On 12 May 2025, HusCompagniet announced (cf. company announcement 7/2025) a turn-key contract with property developer and operator of rental housing Velkomn for the construction of 190 semi-detached houses and one communal house in Ringsted Municipality. After obtaining a building permit and Velkomn's acceptance for the first stage in June (cf. investor news on 6 June 2025), HusCompagniet has now obtained building permits and Velkomn's acceptance for the remaining two stages of the project comprising 107 housing units.

The project is expected to generate total revenue of approximately DKK 230 million over the construction period, which commenced by mid-2025 with delivery of the first units in 2026 and the remaining units in 2027.

Wooden frames and roof cassettes for the houses are manufactured at HusCompagniet's production facilities, supporting a gold level certification of the project according to the DGNB standard.
